WARNING

All the described operations of this instructions page must be performed by qualified personnel only. Disconnect power during installation or servicing. Please respect national and local installation regulations. A.A.G. Stucchi allows the use of A.A.G. Stucchi parts only in applications where the ONETRACK® system is used. These parts must be installed according to the installation instructions. The company as a manufacturer is not responsible for the safety and functionality of the system if parts not belonging to it are used or if there are any deviations from the installation instructions. It is then the user's responsibility to ensure the electrical, mechanical and thermal compatibility between the system and the fixtures used with it. The track, its components and also the adapters can't be used with accessories without the appropriate approvals.

On A.A.G. Stucchi track one can use only A.A.G. Stucchi connections. A.A.G. Stucchi connections can be used only with A.A.G. Stucchi tracks.

The track is to be connected to electrical power by means of the A.A.G. Stucchi articles 9001/.. and 9002/...

It is strictly forbidden to use any kind of solvent, glue, oil, grease or cleaner in contact with ONETRACK® components. The company is not responsible of any demage caused by the use of the materials mentioned above.

There a mechanical key on the track to guarantee the proper connection of multiple pieces of track. This key is present on all end-feeds and connecting

components (see screw below-pictured). Care must be taken when ordering to select the correct components. The catalog drawing depict the position of the key with a red line.
